SOFTWARE ENGINEER (REACT.JS & NODE.JS)

React.js and Node.js Developer with **4+ years** of experience building scalable, high-performance web applications. Strong expertise in React, Next.js, Node.js, REST APIs, authentication, and modern frontend tooling. Proven ability to deliver clean UI, optimized performance, and secure backend services in agile environments.

KEY COMPETENCIES

Frontend:- React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux, React Native (basic / supporting)

Frontend Tooling & Testing:- Vite, Vitest, Jest, Storybook, Git

Backend:- Node.js**,** Express.js, RESTful APIs, WebSocket, Authentication (JWT), PostgreSQL, MySQL, MongoDB

Design & Workflow:- Figma, Agile Methodology, CI/CD Pipelines)

PROFESSIONAL EXPERIENCE

UL Technology Solutions **April 2024 - March 2026**

Frontend Developer

- Built reusable UI components using **ShadCN UI**, improving development speed and consistency.
- Maintained a component library using **Storybook** for isolated development and documentation.
- Used **Vite** for fast builds and testing.
- Implemented **Husky pre-commit hooks** for linting, formatting, and test automation.

Accolades Integrated **May 2023 - April 2024**

Software Engineer

- Built responsive web applications using **React.js** and **Next.js**, integrating with **Node.js** backend services.
- Improved application performance using **lazy loading, code splitting, browser caching**, and backend API optimizations.
- Developed RESTful APIs using Node.js and **Express.js** to support frontend features and data workflows.
- Developed **React Native** applications for iOS and Android with optimized performance.

Steyp Private Limited **Aug 2021 - Jan 2023**

Software Engineer

- Developed **RESTful APIs** using **Node.js** and **Express.js**, supporting scalable backend services.
- Implemented **JWT-based authentication and authorization**, securing user access and API routes.
- Designed and integrated React.js frontend components with backend APIs.
- Optimized application performance through efficient queries, caching, and frontend optimizations.
- Conducted unit and integration testing, improving application reliability and stability.

EDUCATION

B.E. Computer Science – Dhanalakshmi Srinivasan College (2021)

PROJECTS

e-Niyamasabha (Kerala Legislative Assembly)

- Developed a production-grade web platform using React.js for digital management of legislative assembly sessions.
- Built a scalable, responsive UI using ShadCN UI for document, discussion, and voting management.
- Implemented real-time data handling for assembly discussions and decisions.
- Established a component-driven workflow using Storybook to improve UI reusability and maintainability.
- Integrated Husky pre-commit hooks for linting, formatting, and automated checks.

English Cafe – Online Learning Platform

- Developed a responsive learning platform using React.js and Node.js for structured, day-by-day English courses.
- Built a clean, intuitive dashboard UI for course browsing, enrollment, and progress tracking.
- Developed and integrated RESTful APIs using Node.js and Express.js for course management, scheduling, and student progress.
- Implemented authentication and role-based access control using Node.js (JWT) to ensure secure login and user flows.

Stikcon – CRM for Construction & Consulting

- Built a CRM application using React.js and Node.js to manage customer enquiries and admin workflows.
- Developed RESTful APIs using Node.js and Express.js for enquiries, chat, and user management.
- Implemented JWT-based authentication and role-based access control for secure user access.
- Integrated real-time chat by connecting React frontend with Node.js backend APIs.
- Integrated **Google Maps Platform APIs** for accurate location selection during enquiry submission.
- Collaborated with cross-functional teams in requirement analysis and solution planning.

Ladder Kerala

- Developed a responsive corporate website using React.js and Node.js to showcase company projects and services.
- Implemented a clean, responsive UI to ensure accessibility across desktop and mobile devices.
- Built and integrated backend APIs using Node.js and Express.js to handle enquiry form submissions and client follow-ups.
